2013 Drinking Water Quality Report

"Corrected (CCR) May 23, 2014"

2014 JUH - 2 AII !!

HIDE-A-WAY WATER SYSTEM

Jeff Robbins, Certified Water Operator PWS ID #MS0550013 Pearl River County 510 E. LAKESHORE DR. CARRIERE, MS 39426 office@hawlms.net www.hawlms.com

601-798-1484

Is my water safe?

Last year, as in years past, your tap water met all U. S. Environmental Protection Agency (EPA) and Mississi Department of Health drinking water standards. We vigilantly safeguard our water supply and once again we are prouthat our system has not violated a maximum contaminant level or any other water quality standard. This report is a si last year's water quality. Included are details about where your water comes from, what it contains, and how it co standards set by regulatory agencies. We are committed to providing you with information because informed custom best allies.

Do I need to take special precautions?

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-con persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, p HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infectio people should seek advice from their health care providers about drinking water concerns. EPA/Centers for Disea (CDC) guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbial contar available from the Safe Drinking Water Hotline (800-426-4791).

Where does my water come from?

Our water comes from two (2) wells that draw ground water from the Miocene Series Aquifer.

Source water assessment and its availability:

Our source water assessment has been completed by the Mississippi State Department of Health. Copies will be made upon request.

Why are there contaminants in my drinking water?

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some con The presence of contaminants does not necessarily indicate that the water poses a health risk. More inform contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Sa Water Hotline at 1-800-426-4791.

How can I get involved?

Our board meets on the second WEDNESDAY evening of every month. Meetings start at 6:30 p.m. at the H Lake Club House. We encourage all customers who have any concerns or questions to meet with us. Our associati its annual membership meeting on the third Saturday in July at 10:00 a.m. at the Hide-A-Way Lake Club House. T important meeting in which all customers are encouraged to attend.

Other information:

You may want additional information about your drinking water. You may contact our certified waterworks ope may prefer to log on to the Internet and obtain specific information about your system and its compliance h following address: http://www.healthyms.com. Information including current and past boil water notices, con reporting violations, and other information pertaining to your water supply may be obtained.

Water Quality Data Table

The following table lists all of the drinking water contaminants that we detected during the calendar year of this presence of contaminants in the water does not necessarily indicate that the water poses a health risk. Unless other the data presented in this table is from testing done in the calendar year of the report. The EPA and the Miss Department of Health requires us to monitor for certain contaminants less than once per year because the concentra contaminants do not change frequently. Some of the data though representative of the water quality may be more

Total Coliform

Coliforms are bacteria that are naturally present in the environment and are used as an indicator that other, potent bacteria may be present. All results showed all samples free of total coliform.

Additional Information for Lead

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young c in drinking water is primarily from materials and components associated with service lines and home plumbing. Water System is responsible for providing high-quality drinking water, but cannot control the variety of mat plumbing components. When your water has been sitting for several hours, you can minimize the potential for lea flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and take to minimize exposure is available from the Safe Drinking Water Hotline or at http://www.epa.gov/safew. Mississippi State Department of Health Public Health Laboratory offers lead testing. Please contact 601-576-758: have your water tested.

Terms and Abbreviations used in the Table

MCLG: Maximum Contaminant Level Goal - is the level of a contaminant in drinking water below which there is no known or to health. MCLGs allow for a margin of safety.

MCL: Maximum Contaminant Level - The highest level of a contaminant that is allowed in drinking water. MCLs are set as cl MCLGs as feasible using the best available treatment technology.

AL: Action Level - The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a wa follow.

ND: Non-detect.

2013 Drinking Water Quality Report

HIDE-A-WAY WATER SYSTEM

2014 MAY -2 PM 3: 12

IH CANEN SUPPL

Jeff Robbins, Certified Water Operator PWS ID #MS0550013 Pearl River County 510 E. LAKESHORE DR. CARRIERE, MS 39426 www.hawlms.com office@hawlms.net 601-798-1484

Is my water safe?

Last year, as in years past, your tap water met all U. S. Environmental Protection Agency (EPA) and Mississippi State Department of Health drinking water standards. We vigilantly safeguard our water supply and once again we are proud to report that our system has not violated a maximum contaminant level or any other water quality standard. This report is a snapshot of last year's water quality. Included are details about where your water comes from, what it contains, and how it compares to standards set by regulatory agencies. We are committed to providing you with information because informed customers are our best allies.

Do I need to take special precautions?

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice from their health care providers about drinking water concerns. EPA/Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Where does my water come from?

Our water comes from two (2) wells that draw ground water from the Miocene Series Aquifer.

Source water assessment and its availability:

Our source water assessment has been completed by the Mississippi State Department of Health. Copies will be made available upon request.

Why are there contaminants in my drinking water?

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1-800-426-4791.

How can I get involved?

Our board meets on the second WEDNESDAY evening of every month. Meetings start at 6:30 p.m. at the Hide-A-Way Lake Club House. We encourage all customers who have any concerns or questions to meet with us. Our association conducts its annual membership meeting on the third Saturday in July at 10:00 a.m. at the Hide-A-Way Lake Club House. This is a very important meeting in which all customers are encouraged to attend.

Other information:

You may want additional information about your drinking water. You may contact our certified waterworks operator or you may prefer to log on to the Internet and obtain specific information about your system and its compliance history at the following address: http://www.healthyms.com. Information including current and past boil water notices, compliance and reporting violations, and other information pertaining to your water supply may be obtained.

Water Quality Data Table

The following table lists all of the drinking water contaminants that we detected during the calendar year of this report. The presence of contaminants in the water does not necessarily indicate that the water poses a health risk. Unless otherwise noted, the data presented in this table is from testing done in the calendar year of the report. The EPA and the Mississippi State Department of Health requires us to monitor for certain contaminants less than once per year because the concentrations of these contaminants do not change frequently. Some of the data though representative of the water quality may be more than one year old.

Total Coliform

Coliforms are bacteria that are naturally present in the environment and are used as an indicator that other, potentially-harmful bacteria may be present. All results showed all samples free of total coliform.

Additional Information for Lead

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Hide-A-Way Water System is responsible for providing high-quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at http://www.epa.gov/safewater/lead. The Mississippi State Department of Health Public Health Laboratory offers lead testing. Please contact 601-576-7582 if you wish to have your water tested.

Terms and Abbreviations used in the Table

MCLG: Maximum Contaminant Level Goal - is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

MCL: Maximum Contaminant Level - The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

AL: Action Level - The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

ND: Non-detect.

HIDE-A-WAY LAKE ECHOES

May 2014

HAWL's May Calendar of Events can be viewed on page 5 of this Echoes.

HAWL Board Meetings

A Board Meeting was held on April 9, 2014. The next Board Meeting is Wednesday, May 14, 2014, at 6:30 pm.

Memorial Day Weekend Festivities Saturday, May 24, 2014

Pool Open for All: 11:00 am-9:00 pm BBQ Buffet at Waters Edge: 5:00 pm-8:30 pm

Sunday, May 25, 2014

Pool Open for All: 11:00 am-8:00 pm Waters Edge Open: 11:00 am-2:00 pm

Monday, May 26, 2014

Flag Raising Ceremony: 8:00 am Pool Open for All: 11:00 am-8:00 pm Waters Edge Open: 11:00 am-2:00 pm

Memorial Weekend Kickoff BBO Buffet

Waters Edge Restaurant will be kicking off Memorial Day weekend on Saturday, May 24th from 5:00 pm-8:30 pm with a buffet of hamburgers, hot dogs, BBQ chicken, potato salad, and much more! The cost of the buffet is only \$11.95 for Adults, \$5.95 for Children 12 and under, and FREE for Children 4 and under.

Memorial Day Hamburger Special

On Monday, May 26th, from 11:00 am-2:00 pm stop by Waters Edge, where you can: Get a delicious hamburger and chips for only \$6.99!

*No menu items will be available for purchase. *This special is available for dine in or carry out.

Cinco de Mayo

Monday, May 5, 2014 5:00 pm until 8:00 pm

Come and celebrate Cinco de Mayo with Waters Edge Restaurant. The Cinco de Mayo Buffet will include food such as:

Tortilla Bean Soup, Salad Bar, Tacos with all the Fixings, Chicken Fajitas, Mexican "Bake," Spanish Rice, Black Beans, and Mexican Fiesta Corn!

The cost of the buffet is only \$10.99 for Adults, \$5.95 for Children 12 and Under, and FREE for Children Under 4.

Mother's Day Buffet May 11, 2014

11:30 am - 1:00 pm or 1:30 pm - 3:00 pm

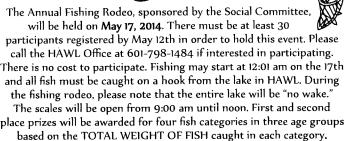

It's that time of year again when we take time out of our busy schedules to thank Mom for all that she does to make our lives special. Waters Edge is here to help you make it a day to remember with great food and an atmosphere that will make her feel like a queen.

The menu will include:

Carved Ham, Bronzed Catfish, Fried Chicken, Vegetables, Salad Bar, Desserts, and Much More!

The cost of the buffet is only \$16.95 for Adults, \$8.95 for Children 12 and under, and FREE for Children 4 and under. Make your reservations today by calling the lodge office at 601-798-1484.

Re: Hide-A-Way Water System Corrected CCR 2013

Dear Ms. Yanklowski:

Per your memorandum dated May 16, 2014, we have corrected our 2013 Consumer Confidence Drinking Water Quality Report (CCR 2013). Enclosed is the corrected report. Our customers were notified of the corrected CCR 2013 via the monthly billing statement generated for May 25, 2014. Attached is a copy of one of the billing statements. The corrected report is also available on our website. Attached is the PDF document from our website.

Please call me at 601-798-1484 if you have any questions.

Sincerely,

Bruce Devillier General Manager
